

Process Engineer

(Ref: PEVOL24)

About the job

HERACLES Group, Greece's leading company in the field of building materials and a member of Holcim, is seeking to cover the position of **Process Engineer** for our Cement Plant in **Volos**

Role & Key Accountabilities

The Process Engineer drives performance improvement in the plant through analysis of existing processes and products by identifying areas for improvement of plant equipment, operation procedures and systems for maximum output and lowest direct production cost, achieving the defined quality standards.

- Guarantees compliance to Health & Safety and Environment policies
- Monitors and analyzes key process and operation parameters and process trends to identify deviations from target and opportunities for improvement; takes action on any parameters that are out of range and support business decision making
- Optimizes plant production and energy consumption, achieving the defined quality level at high consistency.
 - Identifies cost levers and takes action to minimize production cost.
 - Designs and implements specific process inspections, measurements and technical audits
 - Evaluates the results, identifies corrective actions, liaises with production and maintenance to implement the defined actions and conduct a post audit analysis.
- Carries out benchmarking studies, identifies successful practices and communicate them internally. Performs feasibility studies (economic and operational), supports implementation and commissioning of new installation
- Communicates and implements regulations, company goals, local permits, policies and procedures.
- Challenges operations practices

Qualifications & Skills

- **Chemical Engineer's University Degree**
- Postgraduate engineering studies (MSc) will be considered a plus
- 1-2 years experience in the industrial sector (preferred but not mandatory)
- Excellent command of the English language
- Analytical skills - Attention to detail and accuracy
- Good interpersonal skills and Communication
- Influencing and supporting
- Possess inquisitive mindset
- Decision-making capacity / Self-confidence
- Results-oriented

The company offers:

- A unique opportunity to work for a leader player in the cement industry.
- Continuous training and career growth opportunities within an international Group .
