

Press Release

Athens, 04 August 2022

Agreement between Ellinikon S.A. and Lafarge Beton, a member of HERACLES Group

Ellinikon Single-Member S.A. and **Lafarge Beton**, a member of HERACLES Group, signed an agreement on the installation of a ready-mix concrete plant at the Metropolitan Pole of Ellinikon – Agios Kosmas.

Lafarge Beton, a member of HERACLES Group, will install and operate a ready-mix concrete plant, with a capacity of 130m³/h. The plant will serve the needs of the project delivering high quality, low-carbon concrete.

Care for the environment is at the core of both companies' activities, ensuring adherence to the highest standards of environmental protection. The new plant meets the requirements of European and international standards and has an energy and water saving system in place.

The new plant has the potential to deliver innovative concrete, such as Special Architectural Concrete (Agilia, Hydromedia, Artevia, Ultra), as well as the new green range of low carbon ECOPact concrete, which adds value to sustainable construction. As part of its green strategy, HERACLES Group has Environmental Product Declarations (EPD), both for the Concrete Activity as well as all the cement types manufactured in its plants.

Mr. Dimitris Chanis, HERACLES Group CEO, stated: “For us at HERACLES Group, this cooperation with Ellinikon S.A. is particularly important and provides us with the opportunity to contribute to the development of this innovative project for our country having sustainable development as an unconditional priority. We look forward to a fruitful collaboration with multiple benefits for the economy and society.”

Mr. Dimitris Kitsios, Chief Infrastructure and Controls Officer of Ellinikon S.A., stated: “Environmental protection, sustainable development and the benefits for the country and its citizens are, for Lamda Development, the core pillars on which this major Ellinikon project is developed. The cooperation of Ellinikon S.A. with Lafarge Beton is another pioneering step toward the creation of the future green city.”

HERACLES Group of Companies

HERACLES Group of Companies, member of Holcim, is Greece's largest cement producer and has been serving the market for more than 100 years. With a network of 36 production and commercial sites across Greece, the Group is leading the transformation of the building

materials industry into a less carbon-intensive one that applies the principles of circular economy in terms of resource use. HERACLES Group offers innovative products and sustainable solutions to the Greek and international markets that meet the diverse needs of customers and the requirements of modern sustainable constructions.
