

**HERACLES Group supports Evia:
Sponsorship for the paving of the Pounta–Panagia road**

HERACLES Group, a member of Holcim, staying true to its commitment to sustainable development and social responsibility, has donated the required cement and aggregates for the paving of the road connecting the area of Pounta–Panagia to the beach of the settlement in Evia.

This initiative aims to provide safer and more comfortable access for both residents and visitors, especially during the summer months, when the region sees increased footfall. It also contributes to enhancing the overall appeal and accessibility of the area.

Yannis Dasyras, Milaki Plant Manager, stated:

“Supporting the local community in Evia has always been a priority for us. Through the paving of the Pounta–Panagia road—carried out in close cooperation with the Municipality of Kymi–Aliveri—we seek to tangibly improve everyday life for residents while also boosting local tourism. HERACLES Group will continue to stand by the communities where we operate, with initiatives that deliver a lasting, positive impact.”

HERACLES Group

HERACLES Group, member of Holcim, is the largest cement, concrete and aggregates producer in, having more than 110 years of presence in the market. With a network of more than 50 production and commercial sites all over Greece, the Group is leading the transformation of the building materials industry into a low carbon sector, applying the principles of circular economy regarding the use of resources.
